

London Labour Market — Employer-facing Portfolio Index

Curated BI / Data Analyst portfolio | 12B

Purpose

A curated employer-facing package should make the project understandable quickly while retaining technical evidence for deeper review.

Portfolio structure

Section	Primary purpose	Audience
01_Executive_Summary	11B Executive Presentation	Recruiter / Interviewer
02_Case_Study	11A Portfolio Case Study	Interviewer
03_Data_Analysis	Validated Analytical Workbook	Technical interviewer
04_SQL_Python	Selected SQL / Python evidence	Technical interviewer
05_Power_BI	PBIX / dashboard screenshots	Interviewer
06_Recommendations	Recommendations / decision support	Hiring manager
07_Governance_QA	12A Final Portfolio QA	Interviewer
08_Interview_Evidence	11C Interview Pack	Candidate / interviewer
09_Portfolio_Index	This guide	Everyone

Recommended sharing order

- Start with the Executive Presentation.
- Use the Case Study for methodological depth.
- Show Power BI and selected SQL/Python when technical evidence is requested.
- Use QA material to demonstrate governance and analytical discipline.
- Keep the Interview Evidence pack primarily for interview preparation.

Remaining evidence

Add the real Power BI dashboard/PBIX evidence and selected clean SQL/Python examples before the final public release.
